Study: State of the endowment at the waste water evaporation from the flue gas desulphurization and planning of an experimental station for pilot plants

BEWAG, Berlin

Pilot plants/Waste water evaporation consultancy for the experiment, operation, technical processing optimization and evaluation of the experiment

BEWAG, Berlin

Economy of operation analysis
 Evaluation of the cost of the new procedure for waste water treatment from the flue gas desulphurization

BEWAG, Berlin

Oberhavel power plant/pilot plants
 Investigation of washing water from gas preheaters and waste waters from water treatment of the flue gas desulphurization (heavy metals)

Water treatment, waste-water purification

Industrial waste water, processing water

Customer	Project
RWE, Essen	Evaporation of waste waters from flue gas desulphurization plants
Eisenmann, Böblingen	Operation of the waste water treatment plant of the Opel-Werke in Bochum
L.&C. Steinmüller Gummersbach	Overall charge, attendance and reporting of the chemical analysis of the waste water from the Steinmüller pilot plant at the power station Niederaußem
Carbo-Tech-Rütgers Aktivkohle GmbH	Production of 10,000 t/year active coke
Carbo-Tech Ges. für Bergbau und Industrieprodukte	Production of carbon-molecular-sieve-coke
Europäisches Entwicklungs- zentrum für Kokereitechnik	Plant for pre-heating of 10 t/h coke/coal according to the precarbon-process
Carbo-Tech Ges. für Bergbau und Industrieprod.	Foil-piling machine for the PUR-Plant
